POPULATION INDEX

VOLUME 40

1974

OFFICE OF POPULATION RESEARCH, PRINCETON
UNIVERSITY; AND POPULATION ASSOCIATION
OF AMERICA, INC.

ACKNOWLEDGEMENT

The chief responsibility for producing Vol. 40 of Population Index was assumed by its former editor, Barbara Glouchevitch, until her death, and by her staff who are listed on the masthead. Barbara Fineman and Sharon Hayman provided regular and valuable assistance. Many other individuals made valuable contributions also — consulting on Index policy and practice, translating and abstracting population literature in foreign languages, drafting illustrations, producing typed text or tabular copy, providing bibliographical assistance, or helping in other important ways. The Index wishes to thank all those who helped in the preparation of this volume, particularly the following: Dick Boscarino, Bryan Boulier, Adam Broner, Zina Broner, Caroline Browne, Sally Burkman, Margaret Carlin, Diane Coleman, Linda Coleman, Edward di Roma, Eva Frejka, Christopher Hoyt, Ron Lesthaeghe, Phyllis Marsteller, Jane Menken, Nazek Nosseir, Frank W. Notestein, David Pasta, Nina Pugatchenko, Nita Rome, Rose Roth, Norman B. Ryder, Toshio Shigematsu, Shirley Spranger, Virginia Tavares, Patricia A. Taylor, Mary Templeton, Aykut Toros, Etienne van de Walle, Charles F. Westoff, Jay Wilson, Cornelia Wood.

NOTES ON SOURCES

The following lists of current bibliographies and of other periodicals comprise those checked through regularly in the preparation of *Population Index*. The endeavor is to see each issue as promptly as possible, though some lags are unavoidable. In the list of periodicals medical and geographical literature are lightly represented, because primary reliance has been placed upon outstanding bibliographies, notably on the *Index Medicus* and *Current Geographical Publications*. Headnotes in the topical sections of the quarterly bibliographies in *Population Index*, Vol. 40, indicate the nature of these and other exclusions, and the bibliographies that provide wider coverage. This list of sources excludes statistical and other official publications that do not contain substantive articles, irregular serial publications, and of course, books and monographs.
